Water Main Repairs Scheduled for October 21st in Front of City Hall

PORTSMOUTH, VA -- The Department of Public Utilities announces that the water main in front of Portsmouth City Hall, 801 Crawford Street, is scheduled for emergency repairs on Wednesday, October 21st. The water main repair work will begin at 9 a.m. and is expected to be completed by 3 p.m.

One northbound traffic lane will be open during the work schedule to accommodate traffic from the Crawford Traffic Circle connecting to Crawford Street. Southbound lanes on Crawford Street are not expected to be affected.

Please note that all traffic exiting the City Hall parking area via Columbia Street will be subject to a right turn onto Crawford Street, only. To avoid the congestion in the construction area, drivers exiting the parking area can take Water Street north to High Street.

For more information, please call the Department of Public Utilities at 393-8561.
